

Card Cutting & Folding Guide

When printing your cards, follow the line styles carefully:

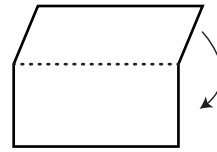

Cut Lines (Dashed Lines)

- Cut ONLY along dashed lines
- Use scissors or a craft knife for clean edges

Fold Lines (Dotted Lines)

- Fold ONLY along dotted lines
- Fold carefully and align edges before pressing down
- Use a ruler or bone folder for a crisp fold (optional)
- Do not cut dotted lines

Assembly Tips

- Cut first, then fold (in that order)
- Check alignment before folding permanently
- For best durability, score fold lines lightly before folding

Quick Rule

- Dashed = CUT
- Dotted = FOLD
